The New Vision of Photography

Touch The Future.

Canon puts the power of the computer at your fingertips with the next major step forward in 35mm photography. The Canon T70, combining optical, mechanical and computer engineering that set it apart from any camera you have ever seen or handled.

For focus-and-shoot convenience, there are three programmed modes: STANDARD for normal subjects; TELE for action and telephoto lenses; WIDE for increased depth-of-field with wide-angle lenses.

There's also Shutter-priority automation, stopped-down automation and full manual control. The optional Canon Speedlite 277T also provides two separate automatic flash modes.

There's dual metering: center-weighted average *and* selective area, measuring only 11% of the viewfinder area. The built-in Power Winder provides auto loading, film advance and power rewind, too.

What's missing? Traditional knobs and levers—replaced by

touch-buttons that set and control all functions. A Liquid Crystal Display with non-volatile memory provides full information readout. The optional Canon Command Back 70 provides even more incredible capabilities. And the entire line of over fifty Canon FD lenses can be used.

Touch the future. At your authorized Canon dealer now.

IF COLLEGE STUDENTS DIDN'T HAVE SO MANY PROBLEMS, WE WOULDN'T MAKE SO MANY CALCULATORS.

Today, anyone with a brain in their head keeps a brain in their hand, too. Which is why Sharp offers a wide range of scientific and financial calculators to choose from.

Scientifically speaking, there's a Sharp calculator that functions as a BASIC computer. A programmable Sharp with a 24-digit display. And solar-powered Sharps that work without batteries.

On the financial end, there are Sharp calculators that perform interest calculations automatically. And compute mark-ups instantly. There's even an advanced model that's programmable in BASIC computer language.

In fact, Sharp makes a calculator for just about every scientific and financial problem you're likely to run into. And each one comes with an extensive applications manual that makes them easier to use.

So if you've got problems in school, take the easy course.

Buy a Sharp calculator.

"Only Bic makes a shaver for both kinds of skin."

Our Bic for sensitive skin, or our regular Bic for normal skin.

It used to be a tough world for sensitive skin. But now Bic creates the first shaver to give sensitive skin the gentle, close shave it demands. And, of course, for normal skin there's the same great shave as ever. Let every man choose for himself. Or in the words of John McEnroe, "Gentlemen, pick your Bic."

Feel the Bic difference.

NOTICE TO GRADUATING SENIORS

Senior Testing Requirement

University policy requires all seniors to complete a general education and/or major area examination in the academic year of their graduation. The general education test is scheduled on the dates listed below for seniors planning to graduate in December, 1986. Choose the preferred test date and register by calling the University Testing Center at 454-2428. CALL EARLY to register for the test date of your choice. The test must be completed PRIOR to your graduation. Tests dates for major areas will be announced later.

FALL SCHEDULE

for graduation

on December 20, 1986

Saturday,	October 11	9:00 a.m.
Sunday,	October 12	1:00 p.m.
Monday,	October 13	6:00 p.m.
Tuesday,	October 14	1:00 p.m.
Tuesday,	October 14	6:00 p.m.
Wednesday,	October 15	1:00 p.m.
Thursday,	October 16	1:00 p.m.
Thursday,	October 16	6:00 p.m.
Saturday,	October 18	9:00 a.m.

About The Graduating Senior Test

The Graduating Senior Test is designed to evaluate the skills that students acquire in their general education program — those lower division courses that are required for all students. It is not meant to test knowledge from a specific major or discipline, but rather to evaluate the student's ability to receive information in a variety of formats, analyze the information, and respond to situations related to adult roles in society. During the test, you will view portions of newscasts and television productions, listen to music and radio broadcasts, look at art prints, and review advertisements, graphs, and blueprints.

Scores on the test will be returned to you, along with information on the rankings of the scores in comparison to a national group and the local MSU group with which you took the test. The report will include not only an overall total score, but also subscores in the following areas:

- Functioning Within Social Institutions
- Using Science and Technology
- Using the Arts
- Communicating
- Solving Problems
- Clarifying Values

A description of each subscore area is included with the score report.

Due to the special format of the test — television, tapes, and slides and the time requirements of the test, students with significant visual, hearing or manual impairments may be eligible for exemption. Handicapped students must request and be approved for exemption through the Director of Handicapped Services, 215 Scates Hall, prior to the last test date for any given semester.

INTENSIVE ENGLISH FOR INTERNATIONALS NON-CREDIT

The Intensive English for Internationals program provides language instruction for non-English speakers in Memphis, in the surrounding area, and from abroad. Students attend classes grouped by ability level and receive a certificate of attendance upon success-

ful completion of study. The program is offered year-round on a semester basis coinciding with the University's calendar and features an 8-week summer session.

All classes are taught by professional staff. All courses are non-credit. Five options are available for the 1986 session: Intensive English with instruction twenty-three hours a week, Semi-intensive English with instruction fifteen hours a week, TOEFL preparation, English Pronunciation, and Vocabulary Development.

Registration and testing for the Intensive and Semi-intensive courses will be held on September 2 or by appointment before that date. In addition to classes listed above, others designed to meet special needs may be arranged. To register for any course or for more information, contact Dr. Nancy Sherman, Intensive English for Internationals Program, Dunn Building (Math & Foreign Languages), Room 310, (901) 454-2814.

COURSE NUMBERING SYSTEM

Courses are numbered according to the following system:

1000-1999	Courses primarily for freshmen
2000-2999	Courses primarily for sophomores
3000-3999	Courses primarily for juniors
4000-4999	Courses primarily for seniors
5000-5999	Courses open to graduate students for personal or professional advancement purposes; not applicable to any graduate degree program.
6000-6999	Courses equivalent to 4000 level senior courses for which a limited amount of graduate credit may be earned.
7000-9000	Courses open ONLY to those students admitted to the Graduate School.

COURSE LOAD LIMITATIONS

	Under-Graduate	Graduate
Minimum semester hours for full time	12	9
Maximum semester hours course load	18*	15

*This does not include physical education activity courses.

VA EDUCATIONAL BENEFITS

IT IS THE STUDENT'S RESPONSIBILITY TO BE AWARE OF AND FULFILL ALL REQUIREMENTS FOR RECEIPT OF G.I. BILL BENEFITS.

Any student using VA Educational Assistance (G.I. Bill Benefits) at Memphis State University should contact the Office of Veteran's Services (Room 212, Scates Hall, 454-2996). New students should be prepared to furnish the following items as needed: an original or VA certified copy of their DD 214, or other armed forces separation papers, a copy of their Delayed Enlistment Contract, copies of their children's birth certificates, a copy of a divorce decree if either vet or spouse was previously married, their VA file number if benefits have been used previously, and a transcript from any college or university previously attended.

The VA places restrictions on those receiving veterans educational benefits. Some of these restrictions include: regular class attendance, satisfactory academic progress, and adherence to a specific degree program. The VA will not pay for repeated courses if the grade already earned is acceptable for graduation requirements and major objectives at this University (this includes transfer credit), or for elective courses in excess of those needed to meet graduation requirements.

Certification Reminders:

- (1) Register with the Office of Veterans Services every semester by completing a Veteran Data Sheet and Certification Request.
- (2) Report credit allowed for prior training in cooperation with your adviser by completing a "Request for Reevaluation of Prior Credit" form. These forms are available from the Office of Veterans Services.

- (3) Inform the Office of Veterans Services of any changes in major or degree pursued, address, marital status, or number of dependents claimed.
- (4) After registering, report to the Office of Veterans Services immediately all changes in class schedules including adds, drops, section changes, cancelled courses, and withdrawals.
- (5) Obtain a degree posting sheet/formal degree plan from your adviser, and furnish a copy to the Office of Veterans Services, as well as keeping a copy for your personal files.

For more information on eligibility requirements, monthly pay rates, and other services available, contact the Office of Veterans Services.

CONSULT DEPARTMENTS FOR FURTHER INFORMATION

ADMISSIONS PROCEDURES

New students planning to enroll for any credit course or on an audit basis must be formally admitted to the University. Admission to the University must be fully cleared before any registration is authorized. Any student who meets admission or readmission requirements after August 1 will not be assured of registration before the first day of classes. Any non-Tennessean who resides more than 150 miles from the University must file an application for admission or readmission prior to that date. Anyone failing to do so will not be assured of being considered for admission.

New Applicants

Applications for admission, detailed instructions concerning admission procedures, and regulations for all student levels may be obtained in the Admissions Office, Room 215, Administration Building. Information concerning graduate student admissions may be obtained in the Graduate Admissions Office, Room 216, Administration Building. After 4:30 p.m. and on Saturday mornings, these may be obtained in Evening Academic Services Office, Room 167, Administration Building, 454-2398.

Former Students

A former student is defined as a student who (1) has previously been enrolled at Memphis State but (2) was not enrolled during the previous semester. Most former graduate and undergraduate students seeking readmission must obtain an application for readmission from Room 167, Administration Building. Former undergraduate students entering Graduate School are not "former students" for readmission purposes. They are new graduate students who must be properly admitted to graduate school as new students by the Graduate Admissions Office, Room 216, Administration Building. All inquiries concerning appropriate readmissions procedures should be directed to the Readmissions Office.

Transferring Credit to MSU

In order for completed additional undergraduate course work to be transferred from another university and recorded on the student's permanent record, the student must request that an evaluation of the

additional course work be completed by the Transfer Affairs section of the Admissions Office. After the student has been admitted as a regular undergraduate, whether he is a beginning freshman or a transfer student, it is recommended that he consult with his adviser or the Transfer Affairs section of the Admissions Office if he anticipates enrolling at another college or university for the purpose of transferring credit to Memphis State University. Information about the transfer of graduate credit may be obtained in the Graduate School Office, Room 315, Administration Building.

Residency Classification

All determinations concerning classification of in-state and out-of-state students for fee-paying and other purposes are made in the Office of Admissions. The determinations are based on the regulations and guidelines of the State Board of Regents. Copies of the guidelines and regulations used in the classification of students for fee-paying purposes are available in the Admissions Office, Room 205, Administration Building, 454-2344.

Persons 60 Years of Age and Totally Disabled Persons

Persons suffering from a permanent disability which totally incapacitates such person from working at an occupation which brings him an income, and persons who will become sixty (60) years of age or older during the academic semester in which such persons begin classes, and who are domiciled in Tennessee, may AUDIT courses at Memphis State without paying tuition charges, maintenance fees, student activity fees, or registration fees. Admission to AUDIT will be limited on an individual classroom basis according to space availability.

Any person who is totally disabled, and persons who will become sixty-five (65) years of age or older during the academic semester in which such persons begin classes, and who are domiciled in Tennessee, may enroll for courses for credit at the cost of one half the normal per credit hour fee, not to exceed \$75 per semester. The University Health Services shall examine certification of permanent disability (not the applicant) and determine the eligibility of the applicant under this legislation.

Inquiries concerning these programs may be addressed to the Records Office, Room 115, Administration Building, 454-2671.

REGISTRATION PROCEDURES

(1) CONSULTING WITH ACADEMIC ADVISER

Current Students

Current Memphis State University students are encouraged to see their academic advisers well in advance of registration, preferably during the preceding term when ample time can be given for general academic advising including assistance in selection of courses for the ensuing term. This is not always possible for new and returning students and for some current students. However, all students are required to have a class schedule with an adviser's signature prior to entering the registration center.

To find where an adviser will be located for assistance in class scheduling, go to the Packet Center located in Mitchell Hall, when it is open, and in the Late Registration Center, during the late registration period. Please consult the registration calendar for dates and times these Centers will be open.

During late registration academic advising occurs in the academic department, where faculty advisers are generally available except when they are teaching. Assistance in locating an adviser can be obtained in the Department Offices. Current graduate non-degree students should secure their approved class schedules from one or more of the designated advising office locations. (See "New and Readmitted Students [Graduate]" section.)

Handicapped Students

Preferential scheduling is offered to students whose academic planning must take into account mobility, medical or educational factors directly related to a disability. Generally, this includes students with handicaps of mobility, vision, hearing and those with specific learning disabilities such as dyslexia. In addition to simplifying the registration process, preferential scheduling allows students to get a particular class schedule so that disability-related needs can be planned in advance. Personal attendants and academic aids who are employed by handicapped students are also eligible for preferential scheduling so that their work and class schedule can be coordinated

to accommodate the disabled students for whom they work. Students requesting this service must be approved by the Handicapped Student Service Office.

Preferential scheduling is begun prior to regular registration. Students using this procedure should see their adviser, fully complete the "Student Schedule" form and take it to the Handicapped Student Service Office well in advance of the beginning of registration. (Please check with the Handicapped Student Service Office regarding deadlines for turning in class schedules.) The desired class cards will be pulled before registration and will be held in the Handicapped Student Service Office where students are to pick them up just prior to going through registration. No cards will be released earlier than one half hour before the student's registration appointment time assigned in the registration packet. Handicapped students may go through registration at any convenient time after the assigned appointment time, however, they should not pick up their cards until a half hour before they plan to register.

Some disabled students find Late Registration easier to manage because of smaller crowds and the close proximity of all registration functions. Students who can manage regular registration are encouraged to do so, however, those who need to go through Late Registration because of physical considerations may request a waiver of the late fee on the basis of handicap if their cards were pulled in advance. Any student who requires assistance with the process of registration should direct their request to the Handicapped Student Service Office two days in advance of their registration appointment.

If a student for whom cards are pulled in advance should for some reason decide not to complete registration, notification must be given to the Handicapped Student Service Office so the reserved cards may be returned to the departments for use by others.

For further information, please contact the Director of Handicapped Student Services, Room 215, Scates Hall, or call 454-2880 (Voice and TDD).

New and Readmitted Students (Undergraduate)

All new freshmen students and transfer students without an academic major will be assigned to the Academic Counseling Unit, located in Scates Hall, and should go to the unit immediately after admission to the University to request the assignment of an adviser. Students who have not seen an adviser will be assigned one.

Students who have been readmitted and have selected a major should contact the department of their major for the assignment of an adviser. Readmitted students without a declared major should go to the Academic Counseling Unit. This should be done in advance of the first day of registration.

Evening (Undergraduate)

New and readmitted undergraduate students enrolling in evening and/or Saturday courses only may obtain the required registration and advising information in the Evening Academic Services Office, Room 167, Administration Building. The office hours are 12 noon-8:00 p.m., Monday through Thursday and 8:30 a.m.-12 noon on Saturday. (Packet Center hours during registration.)

Unclassified, Special Undergraduate, and Audit Students

Undergraduate students who are unclassified, special undergraduate, or audit go to the Academic Counseling Unit, Scates Hall. Evening students in these categories go to the Evening Academic Services Office, Room 167, Administration Building for advising assistance.

New and Readmitted Students (Graduate) — Day & Evening

New graduate students are directed to an adviser following their admission. Readmitted graduate students having a major should contact the department of their major for the assignment of an adviser.

Students classified as Graduate Non-degree are required to obtain enrollment restriction information from each of the advising office locations representing the college in which the student plans to enroll in undergraduate or graduate coursework. Graduate Non-degree advising office locations are as follows:

College	Office	Location	Telephone
Arts & Sciences	Dir Graduate Studies	MI 213	454-2253
Business & Economics	Dir Graduate Studies	BB 426	454-2431
Communication & Fine Arts	Dean	CFA 232	454-2350

Education	Dir Graduate Studies	ED 215	454-2352
Engineering	Dir Graduate Studies	EN 201	454-2171
Dept of Audiology		807 Jefferson	
Speech Pathology		Memphis, TN	525-2682
MSU Jackson			
Graduate Center		Jackson, TN	(901) 427-4725

Graduate non-degree students may enroll in selected courses on a space available, departmental approval basis only.

Graduate students should not attempt to secure an adviser's slip from the Academic Counseling Unit, Scates Hall.

IMPORTANT NOTE: THE GRADUATE SPECIAL AND GRADUATE PROVISIONAL CLASSIFICATIONS WERE DISCONTINUED EFFECTIVE WITH THE 1985 FALL SEMESTER.

(2) OBTAINING REGISTRATION MATERIALS

The registration packet consists of four basic materials: (1) "Student Information Form," (2) "Registration Appointment Card," (3) "Registration Receipt," and (4) a permanent ID card.

Current Students

Registration materials are mailed to the permanent address of all regular students currently enrolled, with the exception of those suspended for academic reasons, those who are on academic probation, and those who have holds placed on their packets by a University office. When a hold is released, the student is given a release card which tells where and when to secure his packet.

New and Readmitted Students

New and readmitted students who have cleared all admission requirements at the time registration materials are prepared, receive their materials by mail. Students not clearing in time to receive their materials by mail are given a chance to obtain materials before the actual day of registration and receive instructions on how to accomplish this.

(3) SECURING CLASS CARDS

Students having their "Student Schedule," permanent ID card, and registration materials, are prepared to enter the Registration Center to obtain class cards and to pay fees.

Registration appointment times — Enter the Registration Center on the date and time printed in the upper right hand corner of the "Registration Appointment Card." Registration priority is based on cumulative hours earned. The student may enter at any later day time after his day appointment time or at any later night time after his night appointment time.

REGISTRATION PRIORITY

Since it is not feasible for all students to register at the same time, it is necessary to establish priorities in the assignment of registration times. Registration priority and the registration appointment times appearing on registration materials are based on the number of cumulative hours earned.

Registration materials must be prepared before the end of the term that immediately precedes registration. **Appointment times do not reflect hours earned during the current term.** For example, registration times for the spring semester are not affected by hours earned during the fall semester.

Registration priority and associated registration appointment times will not be based on the need to work because such a large number of students do work. No practical or equitable way exists to administer a priority system on the criterion of a student having to work.

Unclassified students will be awarded registration appointment times on the basis of hours earned at Memphis State University only.

Seniors not holding an undergraduate degree who are taking degree credit courses have priority over special undergraduate students (those who hold degrees) when enrolling for undergraduate credit courses.

Special Courses

Credit/No-Credit Courses — Certain undergraduate students, with permission from the dean of their college, may elect to take some courses on a credit/no-credit basis. Details are found in the undergraduate *Catalog*.

Procedures for registering are as follows: (1) Obtain permit form from academic adviser, complete information on the form, and secure adviser's signature; (2) Get permission of the dean of their college; (3) Go to the office of the chairman of the department in which the course is taught and secure his approval; (4) Obtain "Class Card Request" form; (5) Take completed permit form and "Class Card Request" to the Registration Center at the appointed registration time.

Audit Courses — The student must: (1) Obtain academic adviser's approval; (2) Go to the department in which course is taught and pick up "Class Card Request" form; (3) Take the "Class Card Request" to the Registration Center at the appointed registration time. Fees for audit courses are the same as for credit courses. Students may not change from a grade point basis to audit or from audit to a grade point basis after the last day to add classes. Further details on audit courses are found in the undergraduate and graduate *Catalog*.

Late Registration

Students registering during the day at the Late Registration Center must go to departments to obtain class cards. Cards are at the Center during evening late registration hours.

ID CARD

ALL STUDENTS MUST OBTAIN A PERMANENT MEMPHIS STATE UNIVERSITY ID CARD BEFORE THEY WILL BE ALLOWED TO REGISTER. THIS INCLUDES PART-TIME STUDENTS, EVENING STUDENTS, UNCLASSIFIED STUDENTS, ETC.

The University issues to each student an identification card which bears his photograph, social security number, and certification that he is enrolled as a student in the University. The card is required for registration, the borrowing of library books, and other purposes. The card remains the property of the University and will be surrendered upon the request of a University official.

A current student who has lost his or her card may obtain a replacement from the Dean-of Students Office, Room 204 Scates Hall. A student will be charged \$10.00 to replace a card that has been damaged, stolen, or lost. A charge of \$2.00 will be made to make any change in data on a card. Students unable to obtain an ID card at an off-campus or special registration must go to the Records Office to have one made.

Part-time students who are enrolled for at least six semester hours of credit courses will be given full-time ID card validation. ID card validation of full-time is for student activity purposes and does not necessarily constitute a full-time academic load.

For information concerning the number of hours required for a full-time academic load, consult the Memphis State University Bulletin.

A credit hour load equal to one-half of that for the minimum full-time credit hour load qualifies as half-time academic load.

(4) PAYING FEES

Students should not enter the Registration Center unless they are prepared to pay fees. Registration is not completed until fees are paid. Students receiving VA assistance are expected to pay fees in full. Students holding scholarships, student aid, or billing authorizations for this term should stop at the "Scholarship" or "Authorized Billing" stations in the Fee Payment Center. Students will not have their names placed on the class rolls until after all fees are paid.

Students may not register until all outstanding financial obligations have been cleared.

"No More Checks" Status

Students who have had more than one returned check in the past twelve months and students who have tendered a returned check for payment of registration fees will be on a NO-MORE-CHECKS status and payment by personal check will not be accepted. Students on a "NO-MORE-CHECKS" status should be prepared to pay registration fees in cash, cashiers check or certified check.

Returned Checks

It is expected that a check given to the University, for any reason, will be honored by the bank on which it is drawn. A check dishonored by the bank on which it is drawn may be presented a second time at the discretion of the University. A \$10.00 returned check charge will be assessed for all checks returned. Returned checks, used as payment of registration fees, which are not promptly redeemed, will result in the deletion of the student from the class rolls. The privilege of making payments for fees and charges by personal check and check cashing privileges will be revoked for any student who has had more than one returned check within a twelve month period of one (1) year from the date the last check is redeemed.

FEES AND DEPOSITS

The listing of these fees in this publication does not constitute a contract between the University and the student. As a condition of registration, each student will pay the fees in effect at the time he or she registers. Fees are subject to change without notice. Persons 60 years of age and totally disabled persons should refer to the sections of this publication covering their registrations.

Application Fee

Each student submitting an application for admission to the University must pay, at the time he submits his first application, a one-time non-refundable fee of \$5.00.

Maintenance Fee

All students, whether resident or non-resident, pay a maintenance fee. Maintenance fees are assessed on course level. Students paying the fee for six or more hours are entitled to admission to home athletic events and certain health services, concerts, plays, social and other student-sponsored activities, and a subscription to the student newspaper, *The Helmsman*.

Summary of Course Fees

	In State	
	Per Hour	Maximum
Undergraduate	\$49	\$565
Graduate	67	690
Law	70	863
	Out-of-State*	
	Per Hour	Maximum
Undergraduate	\$155	\$1780
Graduate	173	1905
Law	176	2078

*Out-of-state student fees include a maintenance fee which is charged each student plus an additional \$106.00 per hour or \$1215.00 maximum.

Fees for auditing courses are assessed on the same basis as fees for credit courses. Courses offered between terms, for concentrated periods during a term, or at specific locations, may be subject to fees on a per-hour basis only.

Activity Fee

All students enrolled for one to five credit hours will pay a student activity fee of \$3.00 per hour. All students enrolled for six or more credit hours will pay a student activity fee of \$45.00.

Tuition

Students classified as out-of-state are charged an additional \$106.00 per semester hour.

The Office of Admissions and Records is charged with the responsibility of assigning a residency classification to each student using regulations provided by the Board of Regents. The student may appeal the decision to the Committee on Residency. Residency regulations of the Board of Regents and information on appeals procedures are available in the Office of Admissions and Records.

RESIDENCY CLASSIFICATION MAY BE CHANGED ONLY BY THE RESIDENCY ADVISER, OFFICE OF ADMISSIONS AND RECORDS.

University College Fees

In addition to their \$5.00 application fee, students who apply to the University College must pay a screening fee of \$15.00, which is non-refundable. If accepted into the University College, the student must pay a non-refundable contract-advising fee of \$25.00.

Students who apply for credit for experiential learning will pay a non-refundable portfolio assessment fee of \$45.00. After the portfolio has been evaluated and credit assigned, the student will pay \$15.00 per credit hour for each hour in excess of three for which credit is awarded. For students enrolled under a group contract, a maximum fee of \$90.00 will be assessed for credits assigned under the terms of the contract.

Courses in Applied Music

The fee of applied music is \$30.00 per semester for each one-half hour lesson.

Music Locker Deposit

Music students are required to have a locker for storage of University-owned musical instruments or equipment. Personal instruments may also be stored in lockers. A deposit of \$3.00 for one semester or \$4.00 for two semesters is required on each locker issued. This deposit, less a service charge of \$1.50 per semester, will be refunded upon return of the lock. Students will be expected to pay for any damages.

Automobile Registration

Each person who expects to operate and park any motor vehicle on the campus must pay \$5.00 for an official permit, valid from September through August, and register the vehicle in the Security Office, Room 151, Administration Building. A reduced fee of \$4.00 is charged for vehicle registrations after January 1, and \$2.00 after May 1. Proof of ownership must be presented when registering the vehicle. You must show registration receipt form to receive parking decal. Residence hall occupants should ask for a special resident decal when registering their automobiles.

ROTC Deposit

A uniform deposit of \$10.00 is required of each student who enrolls in the Army and Air Force ROTC program. The uniform deposit, less charges for uniform loss or damage, will be refunded at the end of the academic year or at the beginning of a semester in which the student is not enrolled in the ROTC program.

Laboratory Deposits

Certain courses in chemistry require breakage deposits from \$10.00 to \$20.00 per semester, depending upon the course. Any unused portion of these deposits will be refunded.

Physical Education Locker and Towel Fee

Students enrolled in physical education courses must pay a fee of \$4.00 for the locker and towel issued them. Students must provide their own lock.

DEAR MSU STUDENT,

An indepth study of the Bible is one of the most rewarding experiences available to you as a serious student. Becoming familiar with the book that has been instrumental in the development of civilizations is enriching the lives of millions today.

Each semester we at the Christian Student Center offer courses from both the Old and the New Testament Literature. This semester we offer an extra Biblical evidence class and two Greek Language classes. Please examine your schedule and include one of these exciting studies this fall.

You are also invited to participate in other wholesome activities and meals. Our weekly schedule includes: Monday Supper, 5:45; Tuesday Night Volleyball, 8:00; Wednesday Night Prayer Meeting, 7:00; Thursday Lunch, 12:00; Friday Night Alternative, 7:30; and Bible Talks at various times.

Late Registration

Students who do not complete registration (including the payment of fees) during the regular registration period will be charged \$10.00 for any late registration after the last regular registration day.

Adding and Dropping Courses

A fee of \$5.00 will be charged for each change-of-course form processed, regardless of the number of course or section changes included on the form.

Transcripts

There is no fee for transcripts. However, the student will be charged \$1.00 for each official transcript over the maximum of five (5) per request. Transcripts are issued only at the request of the student in person or by letter. No transcript will be provided for a student who has any unfulfilled obligation to the University.

Graduation Fee

Each candidate for a degree from Memphis State University pays a \$25.00 fee to cover cost of the diploma, rental of cap and gown, and incidentals connected with the commencement exercises. This fee must be paid thirty days before graduation.

STUDENT FEE REFUND PROCEDURES

Maintenance Fees, Out-of-State Tuition, Music Fees

The following refund percentages apply to students who withdraw from the University or who drop to an hourly load below full-time.

1. 100% Refund: A full (100%) refund of fees will be made for courses cancelled by the University.
2. 75% Refund: The University provides a 75% refund of enrollment fees beginning at the moment of registration and extending for a period of time as noted in the term calendar for the semester.
3. 25% Refund: A 25% refund of enrollment fees is provided after the expiration of the 75% refund and concludes as noted in the calendar for each semester.
4. 100% refund in case of death.

During the normal 75% refund period, 90% of the Student Activity Fee will be refunded. During the normal 25% refund period, 75% of the Student Activity Fee will be refunded. After the end of the normal 25% refund period there will be no refund of the Student Activity Fee.

The University refund policy is based entirely upon the official date of the withdrawal or change of course which would result in a refund. Refunds beyond the specified date or percentage will not be made for reasons such as employment conflicts, health or medical problems, moving out of town, or other reasons which are beyond the University's control or responsibility.

Note on the semester calendar in the *Schedule of Classes* that the refund period ends earlier than the final deadline for dropping a course or withdrawal.

Refunds will be processed beginning approximately three weeks after classes begin.

Appeal Procedures for Fees and Refunds

A student may appeal the assessment, application, calculation or interpretation of any University fee, charge, deposit, or refund, or any University action connected with fees and charges. Questions should generally be discussed with personnel in the Bursar's Office. If a student is not satisfied with the resolution made by the Bursar's Office, a written appeal, on forms available in the Bursar's Office, can be made to the Director of Finance; his determination may be appealed to the Vice President of Business and Finance; and his determination may be appealed to the President of the University. Traffic fines are subject to a separate appeal procedure.

Credit by Examination or Placement Examination

The fee for taking credit by examination is a non-refundable fee of \$45.00, which must be paid prior to the examination. An additional \$15.00 will be charged for each hour in excess of three for which credit is awarded. A fee of \$15.00 per credit hour will be charged when an application for credit is made under the credit by Placement Examination policy.

CHANGING ENROLLMENT STATUS

CHANGE-OF-COURSE APPLICATIONS "ADD-DROPS" WILL BE PROCESSED ONLY AFTER THE REGULAR DATES OF REGISTRATION, COMMENCING ON THE FIRST DAY OF LATE REGISTRATION.

Change of Course

After a student's registration is complete, the class schedule may be changed by adding and/or dropping courses within a specified period only (see University semester calendar). APPLICATION TO ADD OR DROP COURSES BEGINS WITH THE ACADEMIC ADVISER. After late registration, the Evening Academic Services office hours are 12 noon-8:00 p.m. Monday through Thursday, and 8:30 a.m.-12 noon on Saturday. Time limits for add/drop are outlined in the semester calendar. A fee will be charged for each change-of-course transaction before it is processed. *There is no charge for a change made as a result of the University cancelling a course.*

Permission to add or drop a course after the deadlines shown in the calendar must be obtained from the appropriate college dean for undergraduates and the graduate dean for graduate students.

Students enrolled in one course who wish to drop must withdraw from the University.

Schedule conflicts — Each student is responsible for preventing conflicts in the scheduling of his classes. *Students should check each class card which they are issued to insure that the course and section numbers, time and credit agree with what they requested.* Students will be assessed a "change-of-course" fee if it is necessary to make changes because of a scheduling conflict or because of having the wrong class card. Students should be careful to check the schedule for course offerings that might have been changed. Up-to-date information may be obtained during registration.

The University does not guarantee that the instructor listed in the Schedule of Classes will be the one to teach the course, and no fees will be waived accordingly. Change of course fees will not be waived to accommodate changes in student's outside work schedules or changes of health conditions.

University policy prohibits the waiving of the change fee when a course section has been closed and later reopened. *The University reserves the right to cancel courses or sections or to combine sections.*

Withdrawal Procedures

Students may withdraw from the University by contacting the appropriate University official. ID's must be turned in to be invalidated.

- (1) Undergraduate Students—the Center for Student Development, Room 120, Scates Hall
- (2) Evening/Saturday Students—the Dean, Evening Academic Services, Room 167, Administration Building
- (3) Graduate Students—the Dean of Graduate Studies, Room 315, Administration Building

Time limits for withdrawals are stated in the calendar.

Change of College or Major

Undergraduate students in the Colleges of Arts and Sciences, Business Administration, Communication and Fine Arts, Education, Engineering, and the University College may change their college or major by completing an application at the designated office of the college for the new major. These offices are as follows:

Arts & Sciences
 Dean's Office — MI 219
 Business Administration
 College Adviser — BB 357
 Communication & Fine Arts
 Dean's Office — CFA 234
 Education
 College Adviser — ED 211
 Engineering
 College Adviser — EN 259
 University College
 Dean's Office — JN G-1

Graduate students may clarify their eligibility to change their major or classification by contacting the Graduate School Office, Room 315, Administration Building.

Students may change adviser by making application to the college in which they are currently enrolled.

Change of Name, Address, or Social Security Number

It is imperative that the student keep his/her name and address current on University records. Opportunity for changing addresses is provided on the "Student Information Form" in the registration packet. In order to change social security number or name, the student must come to Records Office, Room 119, Administration Building. Students who move should leave a forwarding address with the post office so that all University mail will reach them at their new address.

IMPORTANT: All changes should be made early in the term to insure their processing before the next semester.

GRADE REPORTS

A grade report showing the grade received, credit hours earned, and quality points earned, is mailed to the permanent address of each student at the end of the semester. The grade report will show cumulative hours attempted, hours earned, and grade point average.

Withholding of Grade Reports

The University is required by State law to withhold grade reports, transcripts, and diplomas from students who have outstanding financial obligations to the University. Previous semester grades which were withheld may be obtained (with the proper release card and identification) in the Records Office, Room 119, Administration Building.

THE RECORDS OFFICE WILL NOT RELEASE ANY GRADE EXCEPT BY THE OFFICIAL COPY SENT BY MAIL. TO PROTECT THE CONFIDENTIAL NATURE OF THE STUDENT'S RECORD, NO GRADES WILL BE RELEASED BY TELEPHONE.

ACADEMIC STATUS AND RETENTION

Official notification of academic status is by means of the grade report processed to each student at the end of the regular semester. A complete statement of the policy regarding academic status and retention may be found in the University *Bulletin*.

Specific questions concerning academic retention/suspension should be directed to the Undergraduate Academic Retention Office, Room 167, Administration Building. The office hours are 12:00 noon-8:00 p.m. Monday through Thursday, and 8:30 a.m.-12:00 noon on Saturday. (Packet Center hours during registration.)

UNDERGRADUATE ACADEMIC RETENTION SCALE

Cumulative Hours Attempted	Minimum QPA
0 — 14.99	No Minimum
15 — 29.99	1.40
30 — 50.99	1.70
51 — 67.99	1.90
68 and above	2.00

Note: A student suspended for the first time at the completion of the spring semester will be required to remain out of the University the subsequent fall semester as well as the summer session.

PRIVACY RIGHTS OF PARENTS & STUDENTS NOTICE TO STUDENTS

The Family Educational Rights and Privacy Act of 1974, with which the University intends to comply fully, is designed to protect the privacy of education records, to establish the right of students to inspect and review their education records, and to provide guidelines for the correction of inaccurate or misleading data through informal and formal hearings. Students also have the right to file complaints with The Family Educational Rights and Privacy Act Office (FERPA) concerning alleged failures by the institution to comply with the Act. Provisions for the release of information about students and the rights of students and others to have access to Memphis State University education records are as follows:

A. Release of Personally Identifiable Student Education Records.

Memphis State University shall not permit access to or release of any information in the Education Records which is specifically identifiable as referring to any student, other than Directory Information, without the written consent of the student to any party other than the following:

1. MSU officials and staff who have legitimate educational interests, including academic excellence, honor societies, and fraternities and sororities. Written requests from such officials or organizations shall be sent to the Records Office, and proper identification will be required.
2. Officials of other schools in which the student seeks admission, if the student has executed a release form to that institution. (At a later date a request for academic information from another institution of learning indicating the reason will be honored as a matter of inter-institutional courtesy.)
3. Appropriate persons in connection with a student's application for or receipt of financial aid.
4. Federal or State officials as defined in the regulations concerning this law.
5. State and local officials authorized by State statute adopted prior to November 19, 1974.
6. Organizations conducting studies for, or on behalf of, Memphis State University for the purpose of assisting in accomplishing the University's stated goals, and when such information will be used only by such organizations and subsequently destroyed when no longer needed for the intended purpose. The Dean of Admissions and Records or his designate must approve requests of this nature.
7. Accrediting organizations to carry out their functions.
8. Parents of a dependent student as defined in section 152 of the Internal Revenue Code of 1954. (Note: Husband or wife cannot get records of his/her spouse regardless of dependency.)
9. In compliance with judicial order or subpoena after the University has made a reasonable effort to notify the student.
10. Appropriate persons in connection with an emergency if such knowledge is necessary to protect the health or safety of a student or other persons. Verification of the conditions involved will be fully documented.

Note: All individuals and agencies who have requested or obtained access to a student's record (except as stated in A 1-7) will be noted in a record which is kept with each student's closed file. A request must be in writing stating the purpose of the request. This record will also indicate specifically the legitimate interest that the person or agency had in obtaining the information, and the information made available will be limited to that necessary to satisfy such demonstrable needs.

B. Definitions:

— **Educational Records.** "Educational Records" is defined as those records, files, documents, and other material which (1) contain information directly related to a student; and (2) are maintained by Memphis State University or by a person acting for the University. They do not include: (1) personal notes; (2) records available only to law enforcement personnel; (3) employment records; (4) medical, psychological, and psychiatric records (these are accessible to the student's physician); (5) and records containing only information relating to a person after that person is no longer a student at the University. An example would be a record of accomplishments of an alumnus of the University.

- **Student.** A student is any person who is or has been enrolled at Memphis State University. Wherever "student" is used in reference to personal rights, an eligible parent of a dependent student has similar rights. This "eligible" parent is one who has satisfied Section 152 of the Internal Revenue Code of 1954, and who presents proof of such to the custodian. Normally, this will be notarized affirmation by the parent declaring that the student is a dependent for Federal Income Tax purposes.
 - **Directory Information.** "Directory Information" is defined as: The student's name, address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, the most recent previous education agency or institution attended by the student, the student's full- or part-time status, and the student level. At the time a student registers for courses, the student may personally deliver to the Records Office a written request that directory information for that student may not be released. This notification is effective only for the one semester for which the student is then registering. Such information will then be withheld if the request is received within 14 days after the beginning of classes.
 - **Access.** To have access to an "Educational Record" is to be allowed to see the original record. It implies the right to obtain copies of that record.
 - **School Officials.** School officials are those University employees with general or specific responsibility for promoting the educational objectives of the University. Employees whose responsibilities place them within this category include: teachers; faculty advisers; admissions counselors; academic advisers; therapeutic counselors and vocational counselors; degree analysts; employment placement personnel; deans, department chairmen, directors, and other administrative officials responsible for some part of the academic enterprise or one of the supporting activities; administrative and faculty sponsors of officially recognized clubs, organizations, etc.; members, including student members, of committees appointed by the President; and clerical personnel employed to assist University officials in discharging professional responsibilities. Access by these officials is restricted where practical only to students for whom they have professional responsibility and only to that portion of the student record necessary for the discharge of assigned duties.
 - **Legitimate Educational Interests.** Legitimate educational interests are defined as those interests which are essential to the general process of higher education prescribed by various legislative acts and the body of policy adopted by the governing board. Legitimate educational interests would include teaching, research, public service, and such directly supportive activities as academic advising, general counseling, therapeutic counseling, discipline, vocational counseling and job placement, financial assistance and advisement, medical services, and academic assistance activities. In addition, the University officially recognizes appropriate co-curricular activities which are generally supportive of overall goals of the institution and contribute generally to the well-being of the entire student body and specifically to many individuals who participate in these activities. These activities include varsity and intramural sports, social fraternities and sororities, honorary and academic fraternities and sororities, departmental clubs, professional fraternities, special interest clubs, and student government.
- C. Procedure for Gaining Access to **Educational Records.**
- To gain access, the student must request the custodian to allow him to peruse the "Educational Record," which request will be granted within a reasonable period of time. The student may ask for an explanation and/or copy of his "Educational Record." Examination will be permitted under conditions which will prevent alteration or mutilation of the record. A student must present proper identification upon request. Documents submitted by or for the student in support of his application for admission or for transfer credit will not be returned to the student nor sent elsewhere.
 - If the student believes the "Record" content to be inaccurate, he may submit a request for amendment of his record. Normally such matters will be satisfactorily settled in the course of informal discussion with the student. When this is not the case, the request and the challenge must be presented in writing to the record custodian who will inform the student of his decision within 45 days and of his right to a hearing. The student may then submit a written request for a hearing to the Dean of Admissions and Records who will (1) appoint an Appeals Committee consisting of four "Record" custodians (none of whom is custodian of the "Record" in question), with one of the four designated as chairman, and (2) designate a time and place for the first meeting and inform the student of the same.
 - The Appeals Committee will convene with the student within 45 days from the date of the request, allowing the student, or his parents if the student is a dependent, to present relevant evidence. The student may be assisted or represented by counsel of his choice and at his own expense. A written decision based solely upon evidence presented at the hearing will be given the student within 45 days after the conclusion of the hearing, including a summary of the evidence and reasons for the decision and notification of his right to place a statement in the "Educational Record." Thereupon, the student may submit to the Committee a written explanation to be inserted into the "Record."
- Note: This procedure does not provide for a hearing to contest an academic grade.
- D. Right of Access Does Not Include:
1. Financial records of parents or any information therein.
 2. Confidential letters and statements of recommendation which were placed in the "Educational Records" prior to January 1, 1975.
 3. "Records" to which access has been waived by a student.
- E. No University office receiving student information shall, and all agencies receiving student information will be advised not to, release the information to another party without the written consent of the student.
 - F. The University retains all rights to the student's academic record and may withhold transcripts of the record because of unfulfilled obligations to the University.
 - G. Eligible students and parents have the right to file a complaint with the Department of Education concerning an alleged failure by the University to comply with the "Privacy Rights of Parents and Students" Act. Students may also file a complaint against the University in the office of the Dean of Admissions and Records. A copy of the Act may be read in the offices of the Associate Dean of Admissions and Records (Records), the Dean of Admissions and Records, or the University Council.

Career Planning? Start Here

The Berkeley Guide To Employment For New College Graduates

By James I. Briggs

In association with the career planning staff of the Career Planning and Placement Center, University of California—Berkeley

Compiled and edited by Robert B. Nelson

Here is a comprehensive and thoroughgoing handbook for the college student directly from the front lines of counselling and guiding thousands of students at one of America's leading universities. Intended for the thoughtful, well-organized undergraduate carefully going over career choices or the panic-stricken senior soon to graduate, without any clear view of what comes next (or any of the variations to be found in between those extremes). *The Berkeley Guide* draws on the experience of students and counselling professionals to present a workable career planning guide, with nitty-gritty advice on every aspect of job hunting.

The object is very simple—helping the student to success in finding work that one can be proud of and excited about doing—whether the times are good or bad.

Nursing**

At Methodist School of Nursing, our curriculum involves completion of 32 semester hours of college work followed by 18 months of nursing courses. Two classes are admitted each year, one in August and one in January. We are now accepting applications. Write or call for more information about our RN (diploma) program.

PARKING REGULATIONS

MEMPHIS STATE UNIVERSITY

- * Every vehicle parked on campus property must be registered with the Traffic Office and have a parking decal properly displayed. Visitor passes and temporary passes are available and may be obtained at the Information Center or the Traffic Office. Temporary passes must be obtained for any replacement vehicle being driven by a student, faculty member or staff employee when their registered vehicle is not available.
- * Vehicles must be parked within parking spaces delineated by white paint lines.
- * **Campus Traffic and Parking Regulations** are available in the Traffic/Security Office, 151 Administration Building and the Information Center located at the corner of Patterson and Central.
- * Improperly parked vehicles may be towed at owner's expense. The issuance of a parking decal does not guarantee a parking space on university property. The inability to locate a legal parking space does not diminish the responsibility to park in accordance with campus parking regulations.
- * Parking lots or spaces are restricted according to status and use is allowed only to those having a parking decal corresponding to the color code of the lot. The color code is apparent on the official **Campus Traffic and Parking Regulations** map and on each parking lot sign.
- * Security officers, traffic officers, faculty members or staff employees are not empowered to allow anyone to violate the traffic and parking regulations.
- * Storing articles of value in parked automobiles is not recommended, however, if articles must be left in an automobile they should be placed out of sight and/or locked in the trunk. Memphis State University does not assume responsibility for loss of personal property.
- * Motorists may obtain assistance or information from any campus officer on patrol or by calling 454-2212.

CAMPUS CARE FOR SKIN AND HAIR

Good habits can make a difference

BY BETTY POPOVICH

It's spring. Exams and term papers are ahead, and then comes the long-awaited summer break. Whether your summer plans include travel, a new job or just relaxing at the beach, now is the time to get yourself in shape — mentally as well as physically.

The school year has probably taken a toll on your psyche. Living away from the comforts of home isn't always easy. Face it, whether you're living in a dorm or in an off-campus apartment, you're on your own. How well you eat, how much you sleep — if you sleep — and how you pull yourself together each day are all decisions that you have to make. The habits you form now will probably stay with you long after you leave school.

Living on your own requires a tremendous amount of self-discipline. No one is there to tell you to study for exams or finish your homework assignments. Confronted with a time-consuming research paper, a demanding class project or a difficult exam, you may find academic life a pressure cooker.

Those of you entering the workforce this summer are being hit by a double whammy. Filling out job applications,

going on interviews and not knowing if you'll get the job you want are pressures you don't need when you're trying to concentrate on school work.

It's not easy being a student in today's competitive world. Pressure and stress, however, are two things you will always encounter in life. Learning to cope is important.

Anti-Stress Strategies

Coping with stress is to not let it become habit forming. Think positive: You've gotten this far and learned a lot. Now all you have to do is make the most

of what you know. And, above all, take care of yourself.

Looking good helps you feel good. When you look your best, you feel more confident and are better able to deal with life's little—or not so little—pressures. Fight the temptation to just roll out of bed in the morning, throw on wrinkled clothes and appear in class—for better or worse.

Instead, start your day with a refreshing shower. Use one of those great scented bath soaps that will help make your shower an eye-opening experience. A good shower balm or body lotion will help moisturize dry skin and keep it from becoming rough. It goes without saying, of course, that no matter what the hour or how tired you are as you prepare to climb into bed at night, you should never go to sleep without first thoroughly cleansing your face.

Campus Care Kit

The right products for getting started along the right path in good grooming habits can include: Clinique's Clarifying Lotions 1, 2, and 3, and Clinique's Mild Facial Soap; Shulton's Old Spice Body Talc; Sebastian's Fizz Clear Styling Foam Mousse; Pantene's Hairdresser Design Hairbrush; Elizabeth Arden's Advanced Skin Energizing Extract Texturing Emulsion; Orlane's Extrait Vital Dual Skin Repair Complex; L'Oreal's Visuelle Makeup Fluide, and L'Oreal's Visuelle Powder Blush. of what you know. And, above all, take care of yourself.

If you don't have a blowdryer, invest in one. It will enable you to take care of your hair more easily. It may also pay to invest in a visit to a reputable hair salon, where a professional stylist can help you select a cut that works with your face, your hair type and your lifestyle. The best hairstyle is one that enhances your overall appearance and also requires little fuss.

Wear a cologne or body splash for a well-groomed feeling. There are many fragrances available. You can create a fragrance wardrobe to meet your daily needs: A light cologne for the classroom, a citrus or chypre scent to help revive you after sports activities, and a more traditional scent for that all-important job interview. And, for those special evenings with that special person, wear a fragrance that expresses how you feel. Remember, scent enhances your "look" and personality. Many of the stores that sell fragrances have beauty advisors, who will help you choose a fragrance you can wear and enjoy. While you're at it, you might take a moment to examine the condition of your hands and feet. Are you paying the price — in calluses and bunions — of walking around in ill-fitting shoes? Are your fingernails ragged and bitten, or do you keep them smooth, polished and trimmed to a reasonable length?

Take time to pamper yourself. Do something that will boost your spirits and help relieve stress. If the time crunch is what's getting you down, make an event of what could be a normally routine activity. For example, since you have to eat no matter how busy you are, make the most of it. Slip into your favorite outfit, splash on a nice cologne and meet a friend for dinner. By the time coffee is served, the good conversation and good food should have put you in a better, more productive mood.

Exercise to relieve stress. Sitting in a stuffy library for long hours isn't healthy. During long study sessions, make an effort to get outside. Even if your school is in the city, a brisk walk around the block can help clear your

head. If your campus has a more rural setting, all the better.

Take a bike and go for a quick ride, or jog a mile. Do something to get your cardio-vascular system pumping; to keep those muscles moving.

If you're spending any length of time outdoors, make sure you wear something to protect your skin from the sun's harmful rays. A quick application of a sunscreen will help block ultraviolet rays that can damage your skin. If you spend time in the cold, make sure to moisturize your skin. You can't study in comfort if you're suffering from sun or windburn.

Grooming & Fitness

Good grooming is more than skin deep. This may sound like a cliché but it's true. It's not enough to wash your hair, apply makeup and splash on fra-

grances also swear by the importance of keeping plenty of water coursing through your system—tap water, mineral water, spring water, seltzer—preferably eight full glasses a day.

Get enough sleep. Yes, sleep. During the end-of-term crunch, sleep is something you tend not even to think about, much less experience. But it is important. The last thing you want to do is let your body get run down. A dead-tired zombie is not going to do his or her best on an exam, or make a great impression during a job interview.

For those times when frequent "all nighters" are impossible to escape, use a cover cream to highlight your eyes. It's no substitute for sleep, but it might make you feel better about the way you look.

Practice makes perfect. Remember, the good grooming habits you form now

will be with you for the rest of your life. Knowing which grooming products are best for you is a major step toward establishing an effective grooming regimen.

You're young. Now is the time to experiment. Read labels on products. Learn what they can do for you and how to use them for best results.

Special Grooming

You're special. Your sleep habits, diet and grooming requirements have to be custom tailored to meet your needs. Only you know how much sleep is necessary to help you work effectively. A nutritionist can give you a proper diet.

When it comes to meeting your groom-

ing needs, try talking to the beauty advisor in your local drugstore or department store. Beauty advisors can be a wealth of information and can direct you to those products best suited to your needs.

One final word. Your college experiences are building blocks for the rest of your life. Decisions you make now and habits you form will stay with you forever. Be smart. Get off to a good start. You owe it to yourself. ■

Eat right. A well balanced diet is one of the keys to a glowing, healthy-looking complexion. Make sure that your food provides you with all the necessary vitamins. If you have a weakness for junk food—and we all do—make sure you supplement your diet with vitamins. The next time you go to your local drugstore make a quick stop at the vitamin section. FINANCING YOUR FIRST CAR

What you auto know!

BY MIKE KNEPPER

You have endured the Peloponnesian War, understand what T.S. Eliot really meant and have a handle on supply-side economics. You're educated. And, after enduring 763 sweaty-palm interviews, you even have a job that starts in a few weeks. Now you're about to experience one of life's great firsts: your first I-bought-it-myself new car.

The prospect is both exciting and intimidating. You'll have to contend with a crafty salesman, you'll need credit references you don't have, there is a willing bank to find, and there's bound to be a beady-eyed loan officer and yet another sweaty-palm interview.

Not exactly. As it turns out, financing that first new car is going to be a lot easier than you think.

What follows pertains to graduating seniors, who have what the rest of you are working for: a diploma and a job. But the truth about to be revealed applies to all of you because sooner or later you will be ready to play the game. Of

course, if you have a part-time job and your parents are willing to cosign a loan, you may not have to go through the following procedures.

The first step is to decide which car you want to buy, basing the decision on (1) what you can afford and (2) what you want. Then check local newspaper ads for incentives, such as special deals on certain models, rebates or low interest rates. And finally, arrange for proof of that new job: a note from the personnel director, for instance.

Ultimately, you have to visit the showroom and that means dealing with a salesman. Again, not to worry. Just be prepared to resist the temptation of a higher-priced model and extra-cost options if they will push the price out of reach.

That brings us to money. About one out of every 10 times, a showoff whips out a checkbook and pays for a new car on the spot. The other nine times financing is arranged, primarily from a bank, a credit union or the car manufacturer's financial subsidiary. It's unlikely that

you have a credit union at your disposal, so let's talk banks and financial subsidiaries, such as General Motors Acceptance Corporation (GMAC), the largest lending institution in the world, and Ford Credit Corporation, the second largest.

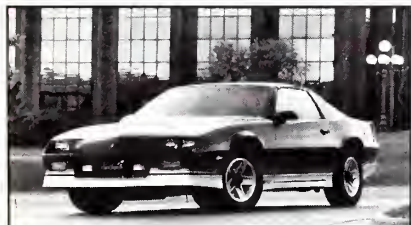

One scenario is to decide on the car, work out the price with the salesman, and look for a bank on your own. This approach lets you shop for the lowest interest rate available. However, it's time consuming, not to mention tedious.

An alternative is to let the dealership handle the preliminaries. Every dealership has a relationship with a bank and will start arranging for financing as soon as you sign the order form. Or you can ask the salesman to hook you up with the manufacturer's financing operation.

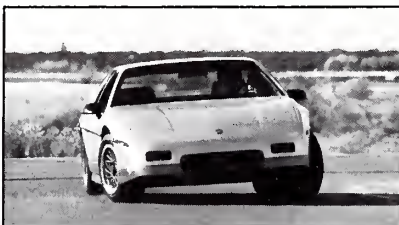

Whichever way you go, you'll be asked to fill out a loan application form. And, of course, they'll ask for the dreaded credit references. Dreaded, because most graduating seniors have precious little credit to refer to.

Dread not. Turns out you're in better shape in that department than you know.

Popular first cars of college students:

Chevrolet Camaro. The most popular 2+2 sport coupe ever built. The four new models for 1986 are the basic Sport Coupe, the luxury Berlinetta, the Z-28 and the ultra high-performance IROC-Z.

Pontiac Fiero. Hottest selling two-seater in the country. This year, a GT model with a fast-back roofline joins the basic coupe, Sport Coupe, and SE versions. Engine: 2.5 litre, 4-cylinder, optional VC 2.8 litre.

Dodge Daytona. A classic and still a very good buy. Features a Turbo Z, 146 horsepower engine. The six speaker stereo system is standard. T-Bar roof, and special handling package are optional.

Let's get it together...buckle up.

IT'S NOT POLITE TO STARE!

CAMARO

This is where driving excitement comes to life. In Camaro. It's the heartbeat of America.

TODAY'S CHEVROLET  **Live it!**

DOLLARS & SENSE

First, there's the obvious: a gas credit card in your name, a charge account at a department store. A good record there indicates, as the people in the lending business are apt to say, a willingness to pay. They like that. Then there's your diploma, which indicates an ability to complete a project, and makes you a valuable commodity in the job market.

So, with all the above and enough cash for a down payment of typically 10 to 20 percent of the car's price, you will most likely be granted a loan.

New-car loans are typically for 36 months, although 48-month loans are becoming more common. A 48-month loan obviously means smaller monthly payments, but it also means an additional year's interest.

Banks tend to be conservative in their loan practices, so there may be some reluctance to make a loan, especially if you'll be taking the car out of state.

The manufacturer's financial subsidiaries, on the other hand, will go out of

their way to sign you up. They're looking for a lifetime customer, and the first step in creating one is to get you in one of their products.

Although just about every manufacturer selling cars in the U.S. these days looks kindly toward graduating seniors, Ford is currently most aggressively pursuing their business.

During their last semester, many seniors receive a mailing from Ford offering a \$400 rebate on certain cars and "conditionally pre-approved credit." According to Don Forsyth of Ford Motor Credit, that means "a senior can walk into a Ford dealership with the certificates in hand and leave owning an automobile without having to go through a great deal of advanced preparation." Ford plans to repeat the offer in the spring of 1986. Ford also offers a special financing plan for graduating seniors.

"If a student is graduating in April, for example, and has a letter indicating the new job starts in August," Mr. Forsyth explains, "we will finance the car, defer the first payment for 120 days and offer a choice of equal monthly payments

or ascending payments that keep pace with probable salary increases."

GMAC has a similar program that offers financing if you lease or purchase any General Motors vehicle. Sometime during their last year, seniors receive a mailer from GMAC outlining a financing plan that calls for just 5% down payment, no "derogatory" credit history (no credit is okay), and some proof of employment. GMAC will delay the first payment for 90 days and will absorb the interest charges for the first 60 days.

And Chrysler Credit is also offering special deals for graduates. A lease financing plan that offers favorable terms has been in place for some time, and a similar plan for the purchase of a new car should be in place in the near future.

So, what it all boils down to is good news for you diploma-holders. You've worked hard, you've accomplished a great deal, and there's a lending institution out there that wants to make your new-car dream come true. ■

Mike Knepper, a former editor of CAR & DRIVER, is a freelance writer.

The lease option

Buying a car, as outlined above, is a relatively simple procedure. You choose the model you want, arrange a bank loan, come up with the down payment, sign on the dotted line, and the car is yours . . . and the bank's.

Then there is leasing. Leasing is a more complicated concept than buying, but it has an advantage, particularly if you are a graduating senior. When you lease a car the down payment and monthly payments required will usually be smaller than when you buy.

One important difference between the two is that when you buy a car you own it, but when a lease agreement expires, you do not own the car because you have not paid for all of it.

Basically, lease payments are determined by subtracting the amount of money the car is worth at the end of the lease from the estimated value of the car when new. That is why leasing is less expensive than buying. Lease payments can also include taxes, maintenance costs, replacement tires and insurance.

There are two major types of lease arrangements: a closed-end lease and an open-end lease. Under a closed-end lease, the lessee simply returns the car to the lessor at the end of the lease.

When an open-end lease expires, the customer is liable for any difference between the estimated value of the car

when the lease began and the selling price of the car when the lease expires.

Of course, there are variations, subparagraphs and fine print on these basics that are best carefully examined by you on

a situation-by-situation basis.

The following chart, based on data supplied by Chrysler Financial Corp., compares the costs of a theoretical purchase against leasing the same car. ■

Today's electronics entertain and educate
at affordable prices

BY DAN SHANNON

My how times have changed. Fifteen years ago you could walk into an electronics store and plunk down \$1,500 for a stereo system, and the quality of the sound would not be as good as a system that costs \$500 today.

In those days electronic products were the playthings of the well-to-do or devoted tweekers. The Compact Disc was just a twinkle in a Japanese engineer's eye. Walkman-type products and personal computers were unheard of, and the format battle was not between VHS, Beta and 8mm, but rather between 8-track and regular cassettes.

But today an electronics store is a veritable wonderland. There is no reason why you shouldn't be able to indulge your whims during the school year when it comes to electronic equipment. Prices today are relatively low and quality is extraordinarily high. One story that illustrates the rapid advancement that has taken place, and perhaps it is apocryphal, says that back in the 1950s a small manufacturing town in Japan changed its name to Usa so it could stamp "Made in Usa" on its transistor radios. It's been quite a long time since the label "Made in Japan" was

synonymous with inferior products.

Much of this change has been due to the quality control programs made possible by microprocessor-based electronic systems. Today, most brand-name products, such as Sony, Toshiba, and Panasonic, as opposed to names you have never heard of, offer generally good quality. If you know what you want, you can be reasonably sure that you can get it.

The following assortment of products, by way of example, represents a somewhat eclectic list of some very good equipment. In each case there are alternative competitive products which might be better suited to your needs or pocketbooks. In no way should this be construed as the definitive list of product choices; on the contrary, the following products might be better viewed as the tip of the iceberg of offerings. For the prices, though, I'd venture to say that it would be hard to go wrong if you picked up one or another of the products recommended here.

A final caution: Prices given are suggested retail and have no bearing on the real world. If you pay the suggested retail, as a rule of thumb, you've paid too much.

TECHNOLOGY & YOU

What's Up At Apple?

Apple continues to push its wares with aggressive peripherals and solid backup from independent software companies. Presumably you don't need to be sold on the Mac — you either love it or not; few in-betweens on that product — but if you're like some Macintosh users, you're beginning to want more flexibility. The word is, when the computer was being designed, the designers wanted to create the "perfect" personal computer with little need for add-ons. Since then, a few peripherals with the intention of expanding the Mac's formidable power have been introduced. Recently a Hard Disk 20, a 20-megabyte hard disk for Mac 512K users, was brought out with an eye toward the business market. In fact, it wouldn't hurt to have that kind of speed (two to three times faster than using floppy disks) on campus, though with a \$1,000-plus tag it's a trifle pricey. The storage capacity (equal to 50 floppy disks), however, makes it a potentially time- and cost-effective purchase. If you're a business major, for example, you can probably write off the expense; if you can't, you might want to consider changing majors.

Toshiba Gets Small

If you're lacking a dorm stereo to plug your Sony portable CD into, then check out Toshiba's System V11, a mini-stereo component system that delivers more performance than its size indicates. With 20 watts per channel, this double-cassette deck (with auto reverse) features IC logic operation, five-band graphic equalizer and meter level. Also, the unit has a belt-drive turntable and compact two-way bass reflex speakers. The System V11 has a suggested list of \$500. An optional double-drawer compact disc player with 30 program random memory (shown in photo) can be added for an additional \$500.

Radio Shack On Your Lap

There's a new Tandy 600 laptop computer being sold through Radio Shack's 1,100 outlets for a pricey \$1,599 (suggested list) but it may be worth the investment. Briefly, the laptop includes 80-column display, built-in 3.5-inch floppy disk drive, 32K RAM (expandable to 224K) and several useful built-in software programs including file management, database, word processing, spreadsheet, calendar, and a telecommunications program. All that is fairly standard, but the features work well with the ergonomics — it feels good to use. Computer purchases are tricky, but you should keep in mind that there is more in the barrel than IBM and Apple.

Sony's Watchman
At ultra-compact black and white TV that produces sharp images on its recessed, business-card size screen; unit weighs just 14.5 oz. and works indoors and out

Smith Corona's PWP
A personal word processor with 64K of memory, and a full range of editing capabilities, including the ability to move paragraphs and search and replace text

GE's Boombox
Good sound quality is built around features that include a dual cassette, AM/FM stereo tuner, five-band equalizer, detachable four-speakers, and built-in microphone; suggested price, \$150

GE Is Music To Your Ears

The American companies have pretty well abandoned the audio industry to the Japanese (and some Europeans), but that doesn't mean that U.S. companies can't buy the units and slap their names on them. Such is the case with GE's Model 3-5685 boombox. If you've listened to boomboxes (a.k.a. ghetto blasters and a dozen other names) recently, you're aware that the sound quality is pretty good. Take, for example, the GE "Power of Music" unit which features dual-cassette (record from one to the other), AM/FM stereo tuner, five-band equalizer, detachable four-speaker system and built-in microphones. The suggested retail price is \$150.

The competition in boomboxes is fairly fierce these days, so check out other than just the GE model. But GE has a good product.

Smith Corona Gives The Word

It's not a typewriter and it's not a computer—it's a Personal Word Processor (PWP) from Smith Corona. What's the difference? According to Smith Corona, the "PWP is a dedicated accessory unit with 64,000 characters of memory—or approximately 32 pages of text—offering complete editing capability including the ability to insert and delete text, move paragraphs, search and/or replace text for the low suggested retail price of \$499.99." Sounds suspiciously like a computer to me, but, in fact, besides acting like a word processor it doesn't do anything else. Which is great if you don't need to do anything other than manipulate words. The system works with Smith Corona's Messenger electronic typewriters and include keypad, 80-character/24-line monitor, WP module with built-in software, connecting cable and cassette drive. It's a sharp system.

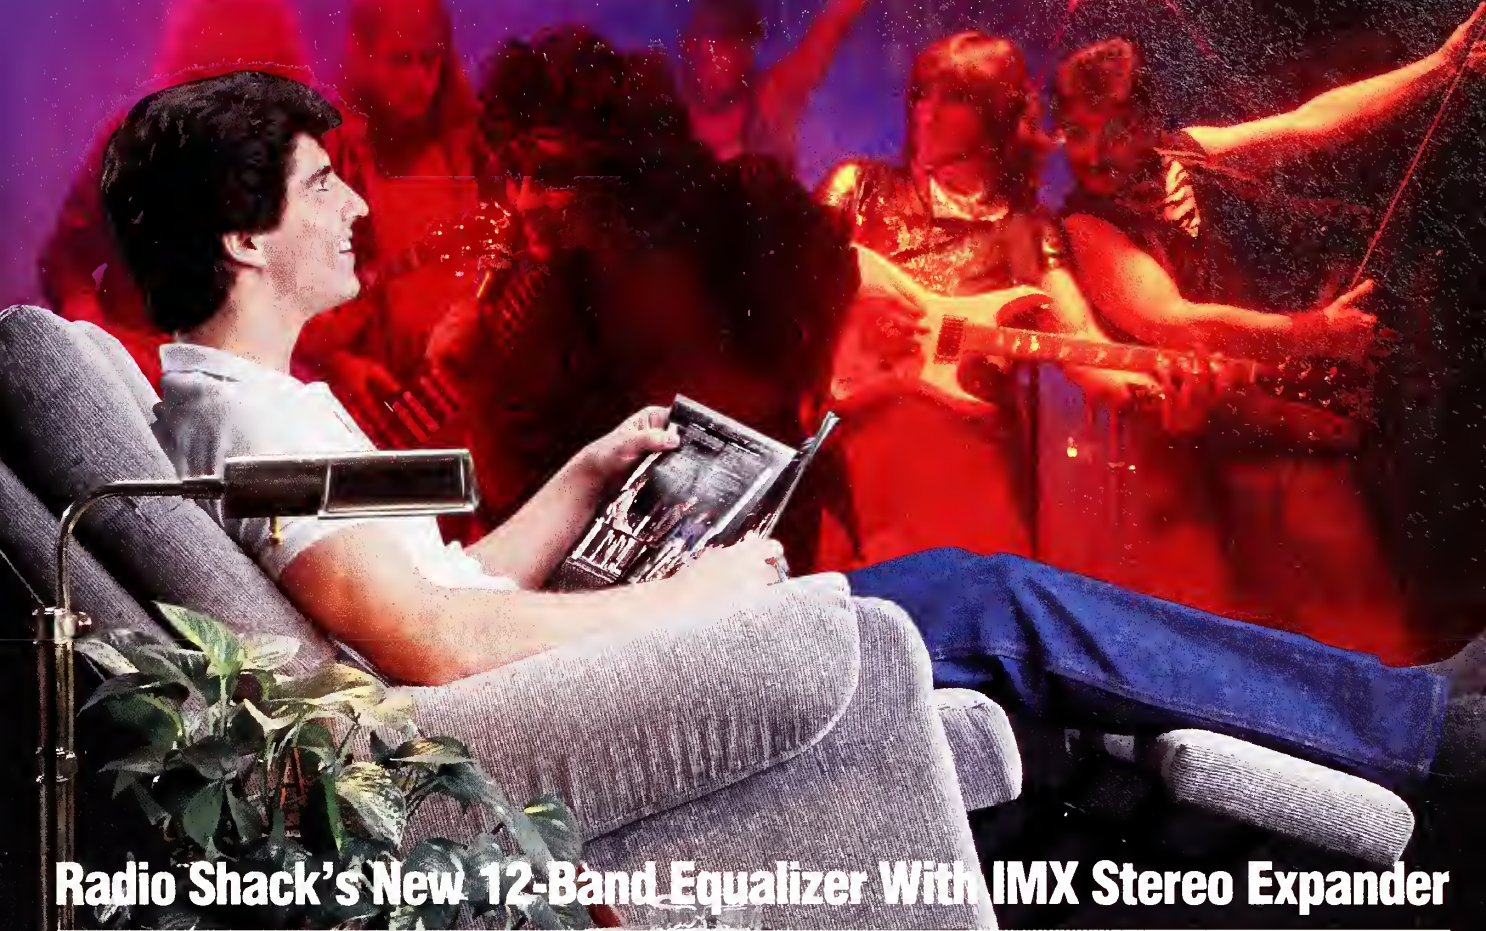

How To Watch Just A Little Television

Good for football games, *General Hospital*, even educational programs, Sony's ultra-compact Watchman (FD-2A) television set is 6 1/4-inches long by 5/8-inches wide and weighs 14.5 ounces (batteries included). Now *that's* small.

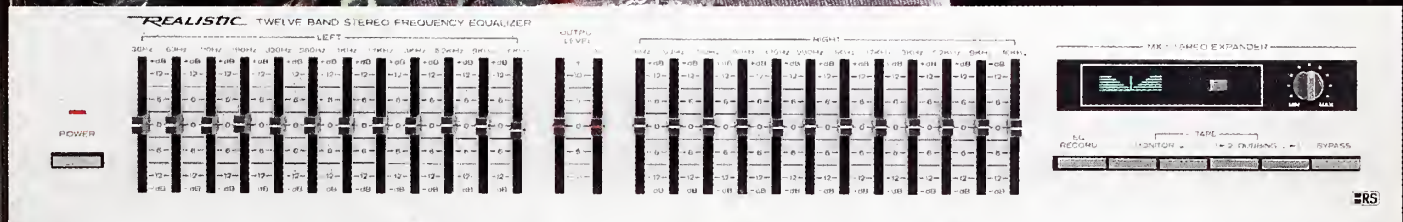

Beyond it's size, however, the Watchman has more to offer. It's a really good little set of its ilk. With recessed and titled two-inch screen (measured diagonally), Sony has added a flat picture tube which displays relatively crisp, high-contrast black and white images, indoors and out. The model — which carries a suggested list of \$179.95 — is powered by four AA batteries (for five hours of viewing), optional AC power adaptor and car battery adaptor cord.

In this instance, seeing is believing. ■

Bring the Dramatic Sound of a Live Performance to Any Room

Radio Shack's New 12-Band Equalizer With IMX Stereo Expander

Unleash the potential of your stereo system with our Realistic® graphic frequency equalizer. With its patented IMX™ Stereo Expander circuit, you'll hear sound that's remarkably similar to a live concert.

The Expander alters the apparent location of sound. Normally, what you hear is concentrated between the two speakers. The expander creates the illusion that sounds are coming from outside this area. The result is a "live" effect comparable to what you hear in a theater. But there's more . . .

Furniture, carpet, room size and shape affect frequency response. But with 24 narrowband controls to adjust audio response up to 12 dB from 36-16,000 Hz, you can practically eliminate acoustic distortion from rooms. And, you can add "punch" to certain instruments or vocals.

You also can make custom-equalized recordings. The built-in dual-tape control center lets you record and monitor from one tape source to another without swapping patch cords.

Come in today for a demonstration. Bring your Radio Shack/CitiLine® card. Only \$119.95.

CAREER ADVISORY

What do you want to be when you grow up?
CAMPUS SURVIVAL GUIDE asked two of the nation's
top student advisors for their sage advice
on the best way to select and prepare
for a successful, satisfying post-college career.

C R O S S R O A D S

Which career path is the right one for you?

BY JAMES I. BRIGGS

Almost 100 years ago, in the magical fairy tale *Alice in Wonderland*, Lewis Carroll offered advice to the reader that is still important today.

When Alice was lost and had to decide which direction to take, she asked the Cheshire Cat, "Would you tell me please which way I ought to go from here?"

"That depends a good deal on where you want to get to," answered the cat.

"I don't much care where," said Alice.

"Then," said the cat, "it doesn't matter which way you go."

Whether you are just beginning college or about to graduate, you, like Alice, are faced with decisions about where to go from here. And like Alice, if you don't know where you want to go, it really doesn't matter which path you take. Or as the writer David Campbell once put it, "... if you don't know where you're going, you'll probably end up somewhere else."

So, as Mr. Carroll has illustrated, deciding which way you want to go means first deciding where you want to go. Right now you may be deciding which major to choose, whether to go to graduate or professional school, or simply whether to take a part-time or full-time job this summer. All of these decisions

are important; they will all have an influence on your future. A good or satisfying decision is one that produces the results that you wanted. The problem is that making decisions is not always easy and usually does not come naturally. In fact, good decision-making is a skill that most people have to learn and practice.

An important way to begin tackling decision-making is to set goals. Goals are extremely important in making any decision. Goals help us get from where we are to where we want to be. We need goals for motivation and as signposts that tell us where we are heading. Setting goals and then defining them as specifically as possible will make all the other decisions we have to make easier and more satisfying.

The biggest obstacle to setting goals and making decisions is a lack of self-knowledge. We often ask ourselves, in Lewis Carroll's words, "Who in the world am I? Ah, that is the great puzzle." The values and preferences of the person making a decision often determine whether the result of the decision is satisfying or not. It is important, then, that we know ourselves well so we may understand clearly the outcomes and results we want from our decisions.

Inadequate information about the options that are available to us is probably

the second greatest deterrent to good decision-making. The more limited our knowledge of the possible choices and alternatives, the more likely we are to make a decision that doesn't give us the degree of satisfaction we might have hoped for.

Often, our lack of knowledge about ourselves and the options available to us leads to feelings of uncertainty, self-doubt, and a lack of confidence. As a result we tend to put off making a decision, or worse yet, we look for events or circumstances, or even other people's beliefs or opinions, to unduly influence our decisions or make them for us.

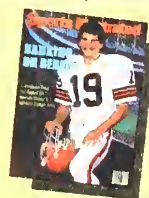

Let's take a look at career decision-making as a way of illustrating the points made above and delineating the steps in the decision-making process.

First, let's examine some commonly held beliefs, or myths, about careers that are held by many people. These myths often have an undue influence on students and can short-circuit your own career decision-making process.

James I Briggs, author of THE BERKELEY GUIDE TO EMPLOYMENT FOR NEW COLLEGE GRADUATES (Ten Speed Press, 1984), is director of the Career Planning and Placement Center at the University of California at Berkeley.

GOALS

MYTH: The demands of the job market should determine your academic and career choices.

Selecting a major or pursuing a career just because it's "hot" in the job market can be dangerous. You may not enjoy the course work or the job you get later. The careers in demand when you are a freshman or sophomore may not be in demand by the time you graduate. You are on much firmer ground when you select a major or choose a career goal that genuinely interests you.

This is a myth that many parents may also believe. Anxious about your future and concerned about the financial "investment" they may be making in your education, parents may put undue pressure on you to major in an area where a job after graduation appears to be a sure bet. This can lead to difficult conflicts if you feel inclined to pursue a goal that your parents do not see as holding much future promise.

MYTH: When you select a college major you are choosing your career.

While it is true that certain majors such as engineering, computer science and accounting prepare students for fairly specific career fields, a far greater number of majors do not have a direct correlation with given career areas. Liberal arts majors often find that they have a very wide variety of career options, including some in technical fields, because their backgrounds are so broad. Even within the technical or professional majors, where specific job skills are taught, there are many different kinds of jobs from which to choose.

MYTH: Liberal arts majors are unemployable.

Liberal arts graduates develop skills that are highly valued by employers and that are applicable to a wide variety of professional jobs. While these graduates sometimes take a bit longer to find the right opportunity, their potential for advancement beyond the entry level is usually very strong. If these graduates sometimes take more time finding a "niche" in the working world, it is usually because they do not know what they can do

or want to do or they are not aware of the options available to them.

MYTH: Your first job will determine your career.

In any decision involving competing choices where each possibility has its own advantages and disadvantages there is rarely one hundred percent certainty. Any choice involves some risk. Do not think that you cannot change your mind. Particularly in the area of career choice, you are almost always free to explore

should begin with self-assessment. You need to look inward before you look outward. Here are six questions to help you collect information about you and your preferences, information that is critical to good career decision-making:

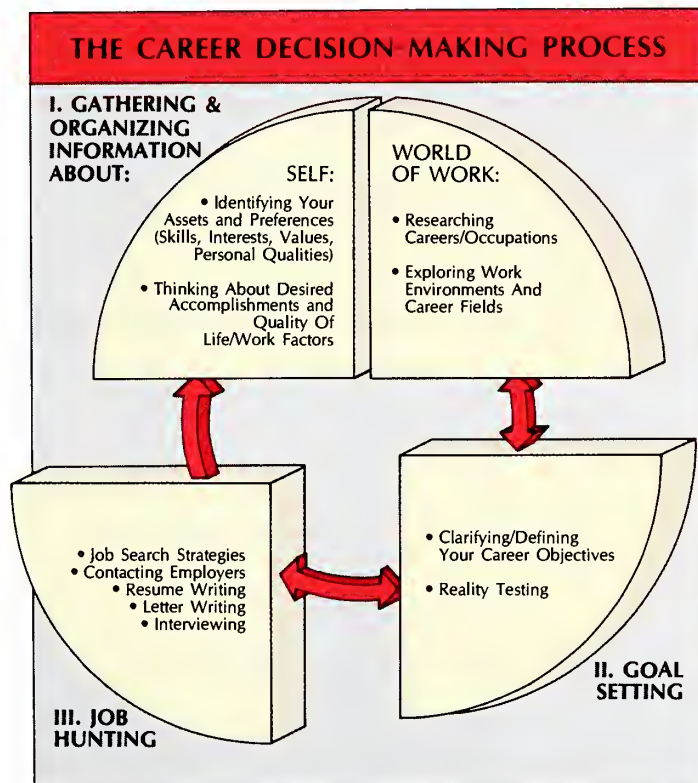

1. What do you have to offer in terms of knowledge, abilities, skills and interests developed through your education and life and work experiences? This includes volunteer work, internships, part-time and summer work, classroom projects, hobbies and extracurricular activities.
2. What do you want to accomplish through your work?
3. What are the characteristics of the work environment you prefer?
4. What geographical location do you prefer?
5. What starting salary do you prefer? What kinds of advancement and salary progression would you like to see?
6. What relationships do you want between your work life and your personal life?

These are big questions and the answers do not always come easily, particularly for upperclassmen. Don't hesitate to seek the help of a counselor or to rely on exercises included among the recommended resources at the conclusion of this article.

Next you will need to start gathering information about the world of work, using what you know about yourself to focus your research. Here are some questions to guide you:

1. What career fields initially seem compatible with my areas of knowledge, skills, abilities, personal qualities, interests and values?
2. What organizations employ people who are interested in these careers?
3. What do people in these career fields actually do?
4. What do people like the most and the least about working in these career fields?
5. How does one best prepare for these career fields?

Once you have gathered and analyzed information about yourself and the working world, it is time to develop a well-defined statement of your career goals. This statement is developed by weaving together the key elements about yourself and the work preferences you have iden-

new directions and make new choices as you learn more about yourself and various careers.

Because work will consume a large part of your life, planning your career is obviously important. The career decisions you make should be based on good information, not myths. There are three steps involved in good decision-making:

1. Gathering and analyzing information
2. Setting goals based on this information
3. Achieving the goals through implementation of an action plan

The career decision-making process follows this model and involves:

1. Gathering and organizing information about yourself and the working world
2. Establishing your immediate and long-range career goals
3. Achieving those goals through effective job hunting

The career decision-making process

GOALS

tified through your self-assessment and research. A well-stated career goal will read something like this:

- I would like to use my proven writing ability, editorial experience, ability to research information, creativity, artistic sense and genuine interest in and concern for the environment by working as a writer/editor for a publication produced by a national organization that promotes environmental concern, with offices in Washington, D.C. I want to be making \$14,000 to \$20,000 per year and work no more than 50 hours per week, leaving time to socialize with friends, attend concerts at least twice a month, and play tennis once a week.

If you are a freshman or sophomore, your career goal may read something like this:

- I would like to develop my organizational abilities, public speaking skills, leadership qualities, and my interest in one day owning my own sporting goods business. I would like to accomplish this by becoming actively involved in student organizations that promote attendance at campus athletic events and by working part-time, perhaps in a local sporting goods store. I want to develop my skills and broaden my experience, and to effectively use opportunities to take supplemental courses in psychology and business administration.

Once your goal is set, it is time to begin accomplishing that goal by implementing a plan of action that will take you from where you are to where you want to go. Your chances of success will have improved dramatically as the result of setting goals and making decisions. Unlike Alice, you will know where you want to go. ■

Prepare for launch: Making the most of your college opportunities

BY THOMAS DEVLIN

As Linus, of Peanuts, said: "There is no heavier burden than great potential." For most college students, however, it is not a matter of having the potential but, instead, how to channel potential toward life and career satisfaction that results in the "heavier burden."

From the time you arrive on campus and throughout your academic years, you should be involved in career exploration. Whether you are a freshman thinking about a future in medicine, a sophomore studying electrical engineering with a career in the electronics industry in mind, or an arts and sciences junior beginning to narrow down your career options, you probably will discover that career planning just doesn't happen over night; it is a gradual, evolving process that requires your attention well before your senior year.

There is no secret formula for career discovery. So, how does one begin? At the outset, it is important for you to look at the career planning process as a challenging opportunity to blend your talents, skills, knowledge and experiences. Think about the entire process as a series of accom-

plishments — often building on each other or occurring simultaneously. You will be pleasantly surprised to discover, when the time comes, that you have already laid the groundwork necessary for making the best career decisions.

Accomplishment — Know Yourself

The first critical step in your career planning is to develop a better understanding of yourself. Take a good look at yourself and your interests. What do you really enjoy doing? What are your preferences? Do you want to work for a large or small company? What types of people do you want to work with?

Certainly, you should keep in mind employment projections when thinking about careers; however, the primary consideration should be personal satisfaction in the career direction you've chosen. Examining your interests, abilities, values, and ideal lifestyles before you think more specifically about careers will give you a much better idea of how to proceed.

Accomplishment — Developing Your Skills

Coursework, grades and work experi-

ence are all factors that employers consider when evaluating applicants. There are, however, several other elements that employers recognize as equally important when seeking well-rounded candidates.

— **Human Relations Skills:** The ability to interact well with a wide variety of people. As one vice president of a major industrial organization said, "While a person's technical knowledge is central to his/her performance in our firm, his/her ability to communicate with colleagues and clients will play a major role in that person's ultimate success."

— **Communication Skills:** The ability to convey one's thoughts in a clear, concise manner. As heard every year from employers when describing the success of past graduates: "It seems that the truly successful and versatile individuals are those who learn to communicate, orally and in writing, during their college years."

(Continued on inside back cover)

Tom Devlin, past president of the Middle Atlantic Placement Association, is the director of the Career Center at Cornell University.

**We not only give you the money for college.
We also give you the time.**

If you think the best way to pay for college is to put it off for a few years and join the military, you're half right.

Because with the New GI Bill, you can join the Army National Guard and earn \$18,000 for college.

But best of all, you serve two days a month and two weeks a year. Which means you can go to school full-time. Right now. On us.

So the question you have to ask yourself is not, can you afford college.

The question is, can you afford to wait.

FROM MATH WHIZ TO COMPUTER BIZ

To David Lebling, creator of *Zork*, life is one big computer game

BY MAURY LEVY

He wasn't supposed to be a computer expert. He wasn't supposed to have invented *Zork*, the biggest selling adventure program in the history of computers. But David Lebling was never a big believer in destiny.

When he was growing up in the Maryland countryside, Lebling was a voracious reader, particularly of science fiction. When he wasn't reading or plotting fantasy worlds, much of his time was spent playing board games. His favorite was *Diplomacy*, the sophisticated game of politics. He almost went to Georgetown with political ambitions. Instead, he ended up at M.I.T.

"I had done really well in math in high school," Lebling says. "And I figured I was going to be a real hot shot once I got to college. Of course so did everyone else at M.I.T. I ended up being just part of the pack. I decided I needed a different direction—something that would make me stand out. I ended up, by pure luck, enrolling in a computer course.

"My interest in computers leaned toward the logic side, not the technical. I was an electrical engineering major for a

little while. But I decided I just wasn't cut out to deal with all the wires and switches. It was the writing part—the programming—that really fascinated me."

It was his interest in programming that got him his first job, at M.I.T.'s Laboratory for Computer Science. That's where he worked until 1980 when he joined Infocom, the industry leader in great games. At the Lab, he worked on complex projects ranging from Morse Code decoding to electronic mail systems. He also became the unofficial games person, developing the language for interactive fiction and putting together the mainframe version of *Zork*.

"At the Lab, I realized the true significance of computers," says Lebling. "They weren't just an end. They were a means to many ends. They helped change my thought process and my way of looking at many facets of life.

"But I didn't spend all my time at the keyboard. One of my favorite courses was Russian History. What did that have to do with computer work? Not much if you want to deal in direct correlations. But it helped give me a perspective on the world. Everything you study helps prepare you for some part of your life."

What's Lebling's advice to today's students? Diversify. "Don't get hooked on just one aspect of learning or life. There's plenty of time later to specialize. You need as well-rounded a background as you can possibly get. Take any course that sounds interesting—anything that seems even remotely related to your goal. If you're dealing with a larger body of knowledge, the paths you take will be so much better thought out."

Many of Lebling's co-workers at Infocom have taken that advice. One was a physicist, one a medical doctor, another a construction expert. None are "just computer people."

And Lebling leads the team. He's worked on *Enchanter* and *Starcross* and wrote *Suspect*, an interactive whodunit. He just completed *Spellbreaker*, the conclusion to Infocom's *Enchanter* series.

Where does he go from here? "I'm working on the next generation of interactive computer games," he says. "It'll probably be a year or two before you see any results, though. Even in computers, the future takes time." ■

**AMERICAN UNIVERSITY
OF THE CARIBBEAN
SCHOOL OF MEDICINE**

M.D. Degree Program

The AMERICAN UNIVERSITY OF THE CARIBBEAN SCHOOL OF MEDICINE (AUC) is located in Montserrat, British West Indies- a peaceful British Crown Colony of the United Kingdom. AUC offers:

- Accelerated 3-year (38 months) M.D. program taught in English, using US medical textbooks. American/British Faculty. American Curriculum
- Three starting classes per year beginning in January, May, and September.
- Low affordable tuition: Basic Sciences \$3600/sem. Clinical Sciences \$3800/sem.
- Listed by the World Health Organization.
- Approved for Guaranteed Student Loan Program and Veteran Administration's VA Benefits.
- An impressive record of many AUC students successfully transferring to US medical schools.
- Nearly 1000 graduates and many are in successful residencies and private practices.
- 8-year track record of student success.

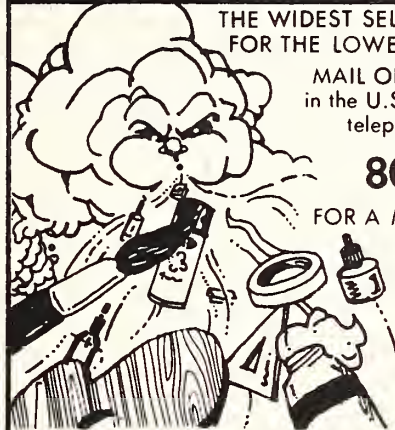

AUC's multi-million dollar campus facilities and physical plant consist of 16 modern buildings which include contemporary lecture halls, laboratories, library state-of-the-art audiovisual system, dormitories, American style campus cafeteria, student activities center and much more. This substantial investment serves to underscore AUC's commitment to quality education. To receive additional information, call or write to:

Rise to the top.

You're a nuclear-trained officer. It goes beyond special. It's elite! And your status reflects a job that demands your best. Proving your skills at the heart of today's nuclear-powered Navy.

Over half of America's nuclear reactors are in the Navy. That adds up to more years of experience with reactors than any company in

the world, and it means working with the most sophisticated training and equipment anywhere.

There's no boot camp. College graduates get Officer Candidate School leadership training, and a year of graduate-level training in the Navy Nuclear Power School.

The rewards are topnotch, too. Generous bonuses upon commis-

sioning and also upon completion of nuclear training. Sign up while still in college and you could be earning \$1,000 a month right now.

Be one of the most accomplished professionals in a challenging field. Lead the adventure as an officer in the Nuclear Navy. Contact your Navy Officer Recruiter or call 1-800-327-NAVY.

NAVY  OFFICER.

LEAD THE ADVENTURE.

TELEVISION-ASSISTED DIRECTED STUDY COURSES

Memphis State University, in conjunction with WKNO-TV, offers television-assisted courses for adults working toward bachelor's degrees and learning for personal enrichment. These courses, designed by specialists in a variety of fields, are rigorous and challenging. They have been developed to serve the special needs of adults who, because of work and family obligations, distance, or handicap choose not to attend on-campus classes. Persons in Memphis and the surrounding areas of Arkansas, Mississippi, and west Tennessee within the broadcast area of WKNO-TV may enroll.

Independent study is a major component of each course. Students are guided in their studies by a detailed week-by-week syllabus written by their MSU instructor, a study guide, textbooks, and written assignments. In most courses, television programs supplement the reading and are broadcast on WKNO-TV and repeated on cable television. Video tapes of the television programs are available for viewing in the learning media center of the MSU library. Written assignments are evaluated by the course instructor with whom the student may confer by phone or in person. Students may also attend optional discussion sessions led by the instructor. These courses are applicable to degree programs at MSU as courses in the major, courses required by a college, or as electives. Students should check requirements for their degree programs before choosing courses.

Registration for these courses may be completed by mail or in person prior to on-campus registration and during on-campus registration. Persons who have never attended MSU or need to seek readmission should apply in advance of registration. Books may be ordered by mail. The fee for both in-state and out-of-state students is the same; see in-state fees under "Fees and Deposits" in this schedule. Contact the University College at 454-2716 for further information.

COURSES FOR FALL 1986

ANTH 3242. THE AFRICANS/THE ETHNOLOGY OF AFRICA, 3 semester hours. Dr. Monte Kenaston

Description and distribution of peoples and cultures of Africa; comparisons and interrelationships during pre and post-contact periods. The course will examine the history and contemporary life of Africa through its triple heritage: what is indigenous, what was contributed by Islam, and what was acquired from the West.

COMP 1200. COMPUTERS AND SOCIETY/COMPUTER LITERACY, 4 semester hours. Mr. Steven Sondheim

Computer and its role in modern world; history of computing and social, ethical, and legal implications of computer use; introduction to computer programming and use of programs for educational and career tasks. Satisfies computer literacy requirement for graduation. Credit may not be applied for degree or concentration in Computer Science.

GEOL 1101. PHYSICAL GEOLOGY, 4 semester hours. Dr. Wayne Ault

Earth's composition and structure and processes which affect it. Emphasis on crust of earth and processes which continually modify surface. There will be a required laboratory one evening each week.

POLS 3700. THE CONSTITUTION: THAT DELICATE BALANCE, 3 hours credit

This is a course on constitutional rights and public policy. Controversial constitutional issues are considered, such as capital punishment, affirmative action, abortion, executive privilege, and national security vs. freedom of the press. The course demonstrates that constitutional law emerges from an ongoing dialogue, requiring difficult choices between the conflicting demands the Constitution honors.

UNIV 1010. THE WRITE COURSE/COMMUNICATION I, 6 semester hours. Mr. John Friedlander

An introduction to college composition which emphasizes the writing process. The course covers basic writing skills, such as pre-writing and shaping a thesis; planning a composition, and composing effective sentences, paragraphs, and essays.

UNIV 1020. EXPLORING LANGUAGE/COMMUNICATION II, 6 semester hours. Ms. Linda Hearn

An innovative approach to the study of language and writing. The course has a dual purpose: to teach the fundamentals of clear, concise writing by providing week-by-week instruction in organizing and writing essays, and to explore the social, psychological, and political implications of language.

UNIV 3519. THEMATIC STUDIES. (6) TIME'S HARVEST: EXPLORING THE FUTURE.

Interdisciplinary course designed to introduce students to underlying philosophies and major issues in the field of future studies, works of major writers and examination of methodologies and techniques used by those in future studies.

UNIV 3521. THE HEART OF THE DRAGON/CHINESE CIVILIZATION, 6 semester hours. Dr. Lung-Kee Sun

China is the oldest and largest civilization on earth. For more than 2,000 years political unity and cultural identity have triumphed over geographic and ethnic diversity. As China emerges into the modern world, its leaders face a dilemma: How can China achieve its goal of modernization by the year 2,000 without destroying the traditions that have held together the fabric of Chinese society? This dilemma is the organizing theme of this interdisciplinary course as it explores what elements of the past can and must be adapted as China builds the future.

UNIV 3526. WHILE SOLDIERS FOUGHT: WAR AND AMERICAN SOCIETY, 6 semester hours. Dr. Robert Frankle

This interdisciplinary course focuses on the various ways in which America has dealt with war and on the changes that have taken place in American society as a result of war. Students begin their study with an investigation of the Revolutionary War, and continue with the Civil War, World War I, World War II, the Cold War, and Vietnam. War and American society are viewed from historical, literary, artistic, and philosophical perspectives.

Choosing a long distance company is a lot like choosing a roommate.

It's better to know what they're like before you move in.

Living with someone for the first time can be an "educational" experience.

And living with a long distance company isn't any different. Because some companies may not give you all the services you're used to getting from AT&T.

For instance, with some companies you have to spend a certain amount before you qualify for their special volume discounts. With some others, voice quality may vary.

But when you choose AT&T, there won't be any surprises when you move in. You'll get the same high-quality, trouble-free service you're used to.

With calls that sound as close as next door. And discounts off our Day Rate on your state-to-state

calls. With savings of over 50% during weekends until 5pm Sundays, or nights from 11pm to 8am, Sunday through Friday. And 40% discounts evenings between 5pm and 11pm, Sunday through Friday.

With AT&T, you'll continue to get services like immediate credit for wrong numbers and collect calling. And long distance operators to help you anytime there's a problem on the line.

So when you're asked to choose a long distance company, choose AT&T. Because whether you're into Mozart or metal, quality is the one thing everyone can agree on. Call 1 800 222-0300 for more information or to choose AT&T.

Reach out and touch someone.®

AT&T

The right choice.

GOALS

— **Problem-Solving Skills:** The ability to think critically and analyze everyday situations. A campus recruiter from a retailing firm remarked, "Regardless of the students' majors, we're seeking individuals who have learned to handle problems in and out of the classroom."

— **A Broad Perspective of Life:** The ability to appreciate the relationship between one's field of study and all aspects of society. Challenge yourself during college, take courses outside your major, learn a language, obtain a sense of history, spend a semester studying abroad, and involve yourself in extracurricular activities. College provides the opportunity to build a broad understanding of society.

— **Mastery of an Academic Discipline:** The ability to acquire a comprehensive understanding of a particular academic field. By ascertaining how well you have performed in your academic major, employers can often determine how well you will handle the responsibilities of the job you are seeking.

Accomplishment — Understanding The World Of Work

Formulating sound decisions requires a good data base. This is particularly true when making decisions about your future. Along with a good understanding of yourself, you will need to acquire an accurate picture of the marketplace. There are several directions you can choose to get a better sense of the "realities" of the world of work.

— **Read** about the myriad career fields and employment opportunities by visiting the library in your career planning and placement office.

— Accept a **volunteer** position to learn more about a particular work environment. After spending a semester volunteering a few hours a week in a hospital, for example, you will have a far more realistic assessment of what's involved in health-related careers.

— **Talk** to alumni and others who are working in career fields you find interesting. Ask them why they chose that career, what it takes to be successful, what they like and dislike about their field, how they made the transition from college to workplace. Information interviews offer the opportunity to expand your knowledge through first-hand experience of others.

— Seek an **internship** or career-related work experience — "reality testing" at its best! Not only will you gain valuable work experience, but you will have an excellent opportunity to **test** your skills and interests.

— **Take advantage** of career forums and career days presented at your school.

If you are a sophomore or junior, **attend** presentations given by employers. Never pass up an opportunity to learn more about the wealth of career options.

Accomplishment — Launching Your Career

As a senior you will continue to explore options and synthesize career planning information. While there probably are many careers in which you have some interest and for which you may be qualified, your goal should be to narrow the field to careers that seem best suited to you.

In addition, as you conduct your career search, you should realize that a career is made up of individual jobs; your first job may not necessarily lead directly down a

straight and narrow career path. There will probably be detours and turns and U-turns before your career path is firmly established.

While you may decide to go directly to graduate or professional school, it is more likely that you will enter the work force following graduation. As you begin to focus upon areas of interest you will be turning your attention to researching prospective employers and acquiring job search skills such as preparing an effective resumé, writing convincing cover letters, and developing sharp interviewing techniques. One of the best resources to help you through the entire career process is your college career planning and placement office. ■
